

**Dr Wim De Greyt** is presently R&D Director at Desmet. He graduated in 1988 as Engineer in Food Technology from the Faculty of Applied Biological Sciences at the University of Ghent, Belgium. He obtained a PhD degree at the same University in 1998 with a study on 'Effect of Physical Refining on Selected Minor Components in Vegetable Oils'.

He worked as Research Assistant at the Department of Food Technology & Nutrition from the University of Ghent from 1989 until 1998. Later he joined Extraction De Smet where he worked first as R&D project leader and from 2000 as R&D Manager. Since early 2024, he is taking the position of R&D Director at Desmet. He is managing all R&D activities in the area of oilseed/biomass preparation and crushing, oil refining and modification and oleochemical processes, including biodiesel production in the three Innovation Centers of Desmet situated in Belgium, France and Malaysia.

He is (co-) author of more than 55 scientific papers and known as presenter at international conferences and workshops. He is a member of the American Oil Chemist Society since 1996 and was from 2009 till 2024 also chairman of the Processing Division of EuroFed Lipid. In this position, he was a Member of the Scientific Committee of the EuroFed Lipid Conferences in Graz (2009), Rotterdam (2011), Antalya (2013), Ghent (2016), Uppsala (2017), Sevilla (2019) and Leipzig (2021). He is also member of the Scientific Committee of the ISF conference that will take place in Argentina (Rosario) in 2025.
