

## Short Bio :

Dr. Véronique Gibon is graduated from the University of Namur (Belgium), earning a Ph. D. in Chemistry in 1984. She started her career as an Assistant Professor at the University of Namur (Belgium). In 1995, she was hired as R&D Manager by the Belgian engineering company Fractionnement Tirtiaux. She later moved (2005) to the R&D Center of Desmet in Zaventem (Belgium), where she held the function of R&D Project Manager and Science Manager until end of 2023. She is now acting as a consultant (Artemis Lipids by VG) with a specialty in edible oils process support and improvement, and R&D – Refining, Fractionation, and Interesterification. She is the author of numerous scientific publications and worldwide presentations on oils and fats.
