

Mr Filippo Ferrari
Sales Director
Servizi Industriali S.r.l.

Mr Filippo Ferrari is a seasoned professional with over a decade of experience in the technical and commercial management of advanced separation solutions within the Oil & Fat, Biofuels, and Oleochemicals industries. With a strong academic foundation in Business Management and Marketing and extensive technical expertise in separation processes, he specializes in managing sales projects that involve the design and implementation of centrifugal separation systems.

Mr Filippo Ferrari possesses a proven ability to handle complex projects with a focus on industrial scalability, transitioning solutions seamlessly from pilot to full-scale operations while ensuring operational efficiency. His knowledge of the separation technologies available on the market enables him to recommend customized solutions to meet different industrial needs. Furthermore, he brings valuable expertise in evaluating sustainable solutions for oil and fat processing, with an emphasis on reducing waste and reusing by-products. Filippo's global network and ability to foster strong relationships with clients and stakeholders ensure alignment with business objectives. By combining his technical knowledge with a customer-centric approach, he consistently drives projects that promote the adoption of advanced technologies in production and refining processes.
