

Mr Sashikant Madgula
Business Segment Leader, Clean Fuels & Chemical Licensing Group
Sulzer Chemtech

Mr Sashikant Madgula is a Business Segment Leader in Sulzer Chemtech's Clean Fuels & Chemical Licensing group (Previously called GTC Technology), with responsibility for the market development of technologies for renewable fuels and upgrading of pyrolysis oils from waste plastics. He has diverse experience in the refinery & petrochemical industry specializing in aromatics and olefins value chains, previously in leadership roles in Southeast Asia and the Pacific region. Before that, he also managed the technical services of start-up/commissioning of aromatics extraction plants licensed by Sulzer Chemtech (GTC Technology) at various client sites. Prior to joining Sulzer, Mr Sashikant worked for ICIS and Argus in their consulting teams, where he was responsible for executing bespoke studies on refinery & petrochemical markets in Asia for various clients. Sashikant holds a master's degree in Chemical Engineering Practice from the Massachusetts Institute of Technology
